👤 PROFILE

Detail oriented and highly organized Versatile ICT and Administrative Assistant with experience in maintaining accurate records, managing documentation, and supporting daily office operations. Skilled in data entry, verification, and reporting, with the ability to identify and correct errors to ensure data integrity. Experienced in coordinating email communications and collaborating with multiple departments to streamline workflows. Involved in procurement processes, including sourcing supplier quotations, liaising with vendors, purchasing required devices and equipment, and ensuring timely delivery of resources to support user needs. Proficient in Microsoft Office, Everlytic, and internal workflow platforms, with additional knowledge of IT support, system troubleshooting, and automation tools. Known for reliability, efficiency, and professionalism in fast-paced office environments.

👜 EMPLOYMENT

ICT And Admin Assistant, WILDTRUST, Pietermaritzburg 07/2023 – Present

- Assist in device and equipment procurement processes by sourcing supplier quotations, comparing pricing and specifications, and supporting purchasing decisions.
- Liaise with vendors and physically visit suppliers to purchase required devices, hardware, and equipment to meet user and departmental needs, ensuring timely delivery and proper asset allocation.
- Create and manage user accounts, mailboxes, permissions, and access controls using Microsoft Active Directory.
- Administer user licensing and security configurations through Microsoft Entra, Exchange Admin Center, and Microsoft Azure.
- Install, configure, and maintain Windows 10 and Windows 11 operating systems.
- Provide first-level technical support for hardware, software, printers, and network/Wi-Fi connectivity issues.
- Deliver both remote and onsite IT support to approximately 70+ staff members.
- Install, configure, and troubleshoot network and local printers across the organization.
- Coordinate with external service providers to ensure minimal system downtime and service continuity.
- Manage full offboarding processes, including account deactivation, license removal, and access revocation across Microsoft services.
- Add and maintain users in Sage and other remote-access systems.
- Deploy and configure Freescout and Kimai on Ubuntu servers.
- Develop and maintain a SharePoint-based IT inventory tracking system to monitor assets and equipment.
- Build and manage Microsoft Power Automate workflows to centralize departmental training records and improve reporting efficiency.
- Maintain and optimize Monday.com ☑ workflows for credit card and petty cash reporting.
- Manage data capturing and perform IT-related administrative duties to ensure accurate record-keeping.
- Collaborate with multiple departments to review, correct, and standardize documentation to maintain compliance and operational consistency.
- Prepare and distribute monthly bulk email communications using Everlytic.
- Identify and resolve documentation errors to maintain data accuracy and integrity.
- Prepare technical documentation, reports, and internal support materials.

Client Consultant, Studo Bed And Breakfast, Pietermaritzburg

12/2020 – 03/2021

- Managed the booking system, including guest bookings, reservations, and cancellations
- Processed payments and handled financial transactions related to client bookings
- Handled inbound and outbound calls
- Attended to customer service requests and inquiries
- Managed client feedback and reviews to help improve the B&B's services and operations
- Performed basic administrative tasks such as printing and emailing important documents and invoices
